Highlight: Continue to support Cochrane Reviews using network meta-analysis and Overviews

Research and development
- A Markov chain approach for ranking treatments in network meta-analysis
- Visualizing the evolution of evidence: Cumulative network meta-analyses of new generation antidepressants in the last 40 years
- Developing a reporting guideline for overviews (PRIOR)

Best practice and guidance
- More than words: Novel visualizations for evidence synthesis
- Conduct and reporting of individual participant data network meta-analyses need improvement

Methods implementation
- Provided feedback on Cochrane’s new Editorial Manager system
- Provide support to review authors, Cochrane Review Groups and the Methods Support Unit by contributing expertise as peer reviewers and advisers
