

# 2020 Key Outputs

**Convenors:** Peter Tugwell, Vivian Welch,  
Kevin Pottie, Elizabeth Kristjansson

**Coordinator:** Jennifer Petkovic

## 2020 Highlight:

**Cochrane reviews to improve equity reporting thanks to new training  
by the Cochrane Equity Methods group**

### Research and development

- Development of a GRADE multi-stakeholder survey to support the equitable implementation of clinical guidelines
- Development of a guideline for when and when not to replicate systematic reviews of interventions
- Published a [framework for identifying potential equity harms related to COVID-19 policy interventions](#)

### Best practice and guidance

- Developed a Cochrane Interactive Learning module to provide guidance for including [equity in systematic reviews](#)
- Authored a chapter on [equity and specific populations](#) in the updated Cochrane Handbook
- Based on the material in the chapter and training module, slides on health equity were developed for Standard Author Training for the Cochrane Trainers' Network

### Methods implementation

- Webinar on health equity in systematic reviews for Cochrane South Africa's training series: <https://www.youtube.com/watch?v=3uyosM2c50Y&feature=youtu.be>
- Webinar on the role of Equity in the Cargill Meat Processing COVID-19 Outbreak, as part of Bruyere Talks
- Equity Matters - Cochrane's New Frontier. Presentation at 2019 virtual Cochrane Colloquium plenary session
