

EVIDENCE FOR EQUITY (E4E)

Peter Tugwell, Jennifer O'Neill

Evidence for Equity – (E4E)

□ **Friendly Front End**

□ Special collection of user-friendly summaries

- E.g. 1-1-3-25
- Pictures vs. tables vs. figures vs. text
- Paper vs. interactive web
- Videos/podcasts
- decision aids
- Simplified English appropriate for ESL

Evidence for Equity FFEs

E4E

- **Aim:** To develop a special collection.
 - ▣ User-friendly summaries of equity-focused systematic reviews of impact of interventions with big effect sizes for high priority (MDG + NCD) prevention programs (primary, secondary, tertiary).
 - ▣ 5 topics: HIV/AIDS, malaria, mental health (depression, anxiety, neurosis), nutrition, public health (diabetes, obesity)

- Completed 25 E4E Summaries in 2013

MDG / NCD

- HIV/AIDS*
- Nutrition
- Mental Health
- Malaria
- Public Health

Criteria

- Substantive effect size
 - Absolute and Relative
- Burden of disease
- Generalizability
- Cost (System, cost to patient)
- Health system scaled up effects
- Ease of implementation
