

2021

Convenors: Isabelle Boutron, Julian Higgins,
Asbjørn Hróbjartsson, Matthew Page

Coordinator: Camilla Hansen

Highlight:

Actively participated in the rollout of the revised Cochrane tool to assess risk of bias in randomized trials (RoB 2) in 2020 and 2021

Research and development

- Leading the work on developing a tool for assessing risk of bias due to missing evidence (ROB-ME) – preliminary version [now available](#) and being piloted
- Leading the work on developing a tool for addressing conflicts of interest in randomised trials (TACIT) – preliminary version has been developed and is being pilot tested
- Leading the work on developing version 2 of the Risk Of Bias In Non-randomized Studies of Interventions (ROBINS-I) tool
- Led the work on updating the PRISMA 2020 Statement and involved in updating SPIRIT and CONSORT

Best practice and guidance

- Part of the steering committee for a living network meta-analysis of interventions for COVID-19 (<https://covid-nma.com/>) and leading procedures for a quality control on the risk of bias assessments on included trials

Methods implementation

- [Delivered a Cochrane Learning Live webinar series on RoB 2](#)
- Presented on ROB-ME at various Cochrane group teleconferences
- Provided feedback on Cochrane's new Editorial Manager system
- Available to support Cochrane Reviews
